The Future Summit: Crafting the Africa We Want

Segal Family Foundation's annual Future Summit is a space where we invite our diverse global community of change leaders to deconstruct and reshape trends in Africa from all angles. This year the stakes are even higher. COVID-19 invites us to think about what is essential and what has been neglected—an opportunity to explore how we can use our various resources to support a vision for the continent that is locally-authored and globally relevant.

Please join our community of partners, entrepreneurs, fellow philanthropists, and the media for this online event on October 1. [Register here](#)
